mini 38B

CLEANING MACHINE

Detail display

Magnetic snap brush plate

It is easier to replace consumables when loading and unloading brush discs

Open sewage tank

Convenient to pour sewage and clean sewage tank

Self-adhesive design

Different cleaning pads can be selected according to the ground conditions without center locator

Easy to replace the rubber strip

The height of the water absorption head can be adjusted to improve the service life of the water absorption rubber strip. The snap process is more convenient to replace the rubber strip

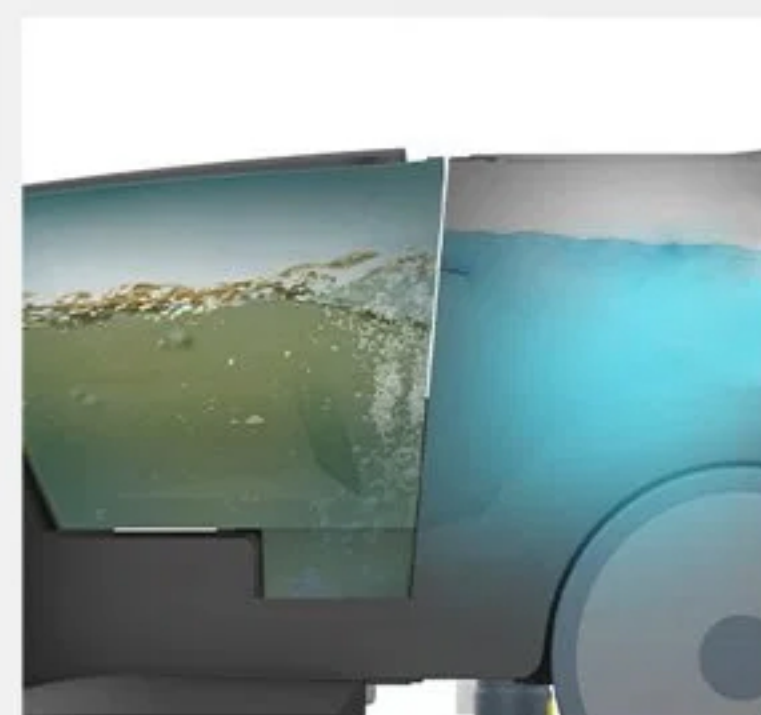

Advantages

Weights only
10 kg

One-hand
operation

5.8L sewage tank
4.8L water tank

Rotate
360 degrees

90-minute
endurance

Folding
handling handle

Parameter & Application

| | |
|------------------------------|--------|
| Model | E-02 |
| Working Width (mm) | 380 |
| Brush Width (mm) | 430 |
| Working Efficiency (m2/h) | 1200 |
| Brush Disc Diameter (mm) | 185 |
| Brush Disc Speed (r/min) | 170 |
| Brush Disc Motor Power (v/w) | 24/100 |
| Brush Pressure (kg) | 5.5 |
| Sewage Tank Capacity (L) | 5.8 |

| | |
|--------------------------------|-------------|
| Clear Water Tank Capacity (L) | 4.8 |
| Suction Motor Power (v/w) | 70 |
| Noise (dB) | 65 |
| Continuous Working Time (min) | 70 |
| Working Voltage (V) | 24 |
| Packaging Dimensions (mm) | 512*450*414 |
| Battery Specification (V/Ah) | 24/6 |
| Battery Weight (kg) | 1.4 |
| Machine Weight without Battery | 8.6 |
