Automatic Gearbox

**ISV 2800 CARPET & UPHOLSTERY CLEANERS**

**ISV 2800 HOT WATER CARPET & UPHOLSTERY CLEANER**  
**ISV 2800 S STEAM CAREPT & UPHOLSTERY CLEANER**

Our ISV series are ideal carpet and upholstery cleaning machines for carpet cleaning companies , car detailing shops hotels , mosques, and carpet covered large areas. With its hot water feature tough stains and heavy dirt is removed from the surface of the carpet and seats. Dirty water can also be vacuumed with a high suction power generated by 2 pieces of industrial type of interconnected engines  
 ISV 2800 S produces up to 150-170° degrees of steam through its steam generator. Steam helps dissolve dirt in a short period of time and leaves no wetness on surfaces. Moisture created by steam also disappears quickly. Along with providing high quality of cleaning ,it also disinfects the surfaces with 150° degrees of heat..

**HTM SERIES AUTOMATIC CARPET & AREA RUG DUSTER**  
**HTM 210 – HTM 260 – HTM 320**  
**HTM 420**

**Removes excessive dust by beating and vacuuming from Carpets and area rugs effectively prior to washing.**

Studies have proven that 50 to 100 g of dust is noticed to come out of every average 6 sqm rug that goes through dusting machines. Dusting rugs before washing reduces the time, water and detergents needed to reach ultimate cleaning. 300 to 500sqm carpets can be de-dusted in about an hour through Automatic duster. Average electrical consumption is 4kw per hour, which makes it not only economic to use but also easy to operate and maintain.

**DRY 60 CARPET DE-HUMIDIFIER**

**Industrial de-humidifiers mainly used for drying of carpets, paint, Food etc...**

De-humidifier DRY 60 is designed and manufactured for use in drying Carpets and area rugs. The effective volume of isolated drying room that DRY 60 to be used is 100 m3. Its working temperature is 40° Celcius and maximum temperature is 52° Celcius.

**AUTOMATIC CARPET WASHING MACHINES**  
**BRS 260 – BRS 320 –**  
**BRS 420**

**EASY TO USE, HIGH CAPACITY, POWERFUL AUTOMATIC CARPET WASHING MACHINES AT AFFORDABLE COSTS**

With the use of touch screen control panel on the machine, how much water and detergent to be used and how long brushing and rinsing will be made can be adjusted and put into the system memory. Provided with this washing program, desired quality of cleaning can be used as standard and as many times as needed.

**Saves up to 80% on chemicals, water, detergent and labor force.**

Comes complete with all parts and components to be installed on the customer site. Installation, and training provided.

Proven system for effective and large quantity carpet and area rug washing for many years. Being used in about 50 countries worldwide with success.

CARPET WASHING CAPACITY BETWEEN 80 – 140 SQM PER HOUR

**MANUAL CARPET WASHER**  
**SC 43, SC 43 D**

Used for cleaning and polishing of floors (marble, pvc, mosaics etc.) also brushing, scrubbing and cleaning of carpets. Provides an easy and quiet Operation. Models with belt drive and gear box.

These are professional scrubbing and polishing machines for business centers, markets, schools, factories, hospitals and cleaning companies. Our model of SC 43 with its 2hp motor and a large brush, and SC 43 D with its double brush are preferred by Professional carpet cleaners.
