

Emergency Eye & Face Wash Units

In an emergency situation, seconds count - especially when it comes to eye injuries. Our emergency eye wash stations are ideally suited to factories, warehouses, workshops, chemical plants, foundries, petrol stations, garages, laboratories, or any workplace where hazardous or corrosive chemicals are used.

We understand that no two workplaces are alike, and that each has its own unique requirements. That's why we sell emergency eye and face wash equipment with a variety of installation options, from wall mounted eye wash stations, to pedestal eyewash stations, to freestanding eye wash units. We also sell emergency eye wash stations with foot and hand operation to give users greater control in situations involving injuries to multiple parts of the body.

If you undertake a lot of remote work, you may also be interested in our portable eye wash stations, which are designed for use during site work, especially in areas with limited or no access to clean water. These units can store eye washing water safely for up to six months, after which time it can be easily replaced.

Self-Contained Eyewash Units

Contains a large volume reservoir of flushing fluid within to provide a continuous 15-minute flow.

ANSI Compliant

MAGMA portable eyewash units meet all ANSI requirements for flow rates, stream heights, and pressure for the full flushing duration and are CSA certified to ANSI/ISEA Z358.1-2014.

Portable

Ideal for locations without access to potable water or for locations where eyewash access needs to be moved at a moments notice.

Model 9 gallon (34.1 L) capacity gravity operated portable eyewash. Retooled to ensure the long-term durability with quality craftsmanship only Haws can deliver.

The MAGMA 9 Gallon Portable Eyewash is designed to provide the ultimate solution to locations in need of an eyewash that have no access to a potable water source. The

GravityFlo Portable Eyewash station features a 9 gallon tank, providing continuous flow for the ANSI/ISEA Z358.1 required 15 minutes. With the capability to be shelf, table, or wall-mounted, this gravity operated eyewash can be placed practically anywhere within a worksite. A simple pull of the highly visible yellow activator instantly delivers relieving streams, allowing hands free operation. The SE-4400 is offered with a 3 year limited warranty.

Flow Rate 0.4 GPM for 15+ minutes
