ELECTRIC PISTON PUMP

Especially high suction and delivery performance – across the range

Do you mostly work with viscose or filler materials? Then an electric WAGNER piston pump is the the best support for you. The high suction power produced by the piston's lifting motion makes it ideal for this type of material.

Various performance classes for professional and semi-professional users: With the third generation of piston pumps from WAGNER, you have a choice of machines for large or small sites. They cover a broad range of paints and emulsions - right through to high-viscosity and filler materials for interior and exterior use.

1. BRUSHLESS MOTOR: Brushless motors are a real benefit for this device, especially in terms of its long service life. Alongside its efficient mode of working, its key advantages include a constantly high torque with low power consumption and reduced heat generation.

A powerful companion - inside and out: WAGNER piston pumps are available with three different drive systems. Electric piston pumps cover a wide range of performance classes and have a compact design. The hydraulic piston pumps offer even better performance and are available with a choice of either petrol or electric motors which can be switched in a few minutes. Pneumatically driven piston pumps from WAGNER are explosion-proof and therefore are suitable for use in workshops.

2. NO CONTINUOUS RUNNING: Piston pumps only operate when you have to build up pressure. The rest of the time, the drive is on 'standby'. This protects wear parts and has a positive impact on site noise levels.

CROSS-SECTION OF THE PISTON

upper packing
lower packing

outlet-valve

ADVANTAGES

- Powerful suction
- Better delivery capacity with high viscosity materials
- Less sensitive to filled materials
- Large nozzle sizes can be used
- Extra-durable packing

PROSPRAY 3.20 HEA SPRAYPACK

The compatible piston pump for Airless beginners

- **Robust and simple:** perfect for use on the construction locations, reliable, easily accessible high quality packings
- **Good performance at an attractive price:** for medium-sized projects, ideal for interior emulsion paints
- **Innovative, low-pressure airless technology:** up to 55 % less overspray due to HEA technology

- **With flexible suction system:** for simple intake directly from the original container
- **Well-proven piston pump:** ideal for comfortable transport and space-saving storage

Included: tool bag with two open-end spanners

User-friendly: easy to operate and a reduced number of settings options makes starting up the sprayer easier.

HEA 517 nozzle: for a soft spray pattern and up to 55 % less spray mist

HEA pressure gauge: a longer service life thanks to innovative HEA low-pressure airless technology

Inlet pusher valve: for a high operating reliability and easy commissioning. Just the press of a finger, and the valve is free

Hose rewind: for optimised storage of the hose

Double-Acting-piston pump: for consistent material feed

≤ 0.021" ; 1.6 l/min

PROSPRAY 3.20 HEA SPRAYPACK

ProSpray 3.20 basic unit	-
HP hose DN6, 27 MPa, NPSM 1/4", 15 m	9984574

PROSPRAY 3.21 HEA SPRAYPACK

Small and compact – for small object sizes

- **Innovative, low-pressure airless technology:** up to 55 % less overspray
- **Optimum value-for-money:** Ideal for all users who mostly spray-coat small surfaces on a daily basis
- **For trouble-free operation:** Integrated high-pressure filter

- **Compact design with outstanding performance data:** 0.023" nozzle size, 2.0 l/min max., delivery rate: 16 kg weight
- **With flexible suction system:** for simple intake directly from the original container

Compact: for easy transportation and space-saving storage

Maintenance made easy: With the push of a button the piston is oiled and thus the packings are conserved.

HEA Pressure Gauge: longer life thanks to innovative HEA low-pressure airless technology

HEA 517 Tip: soft spray pattern and up to 55% less overspray

DN6, 15 m high-pressure hose: for a large radius of action

Inlet pusher valve: for a high operating reliability and easy commissioning. Just the press of a finger, and the valve is free.

≤ 0.023"; 2 l/min

PROSPRAY 3.21 HEA SPRAYPACK - DPPS 532089

Basic unit, PS 3.21	-
HP hose DN6, 27 MPa, NPSM 1/4", 15 m	9984574
Pressure gauge set assy. HEA(MPa)	2383995

PROSPRAY 3.25 SPRAYPACK

A compact emulsion unit for medium-sized objects

- **Innovative ProSpray product features:** Digital information readout and unit control directly on the device - piston oiled at the touch of a button - inlet valve depressor for high operating reliability - and more
- **Easy to handle:** Compact design for ease of transport and space-saving storage

- **Lightweight:** Just 17.9 kg (skid version) or 27.4 kg (cart version)
- **Two versions:** Available on trolley or as a compact Skid version

Clearly arranged - DESC-Control:

With the digital display you can read out and handle machine data, consumption figures, runtimes and much more. The intelligent deadband control, SlowMotion function and FrequentClean guarantee trouble-free work and quick cleaning

Maintenance-free, brushless

direct current motor: Due to the improved performance, the motor works even more efficiently at low and also at high speeds. The continuous paint pressure measurement controls the motor speed automatically, thus ensuring a constant material pressure

Superb Spray Surface Quality: with the Vector Grip Airless gun. Light in weight with a long service life

Maintenance made easy: With the push of a button the piston is oiled and thus the packings are conserved

Inlet pusher valve: for a high operating reliability and easy commissioning. Just the press of a finger, and the valve is free

Also available as skid version

≤ 0.027" ; 2.6 l/min

PROSPRAY 3.25 SPRAYPACK - DPPS

Basic unit, PS 3.25 on cart	-

EasyGlide, special oil, 118 ml	508619

PROSPRAY 3.31 SPRAYPACK

A reliable unit for large-area emulsion work

- **Electronic control, information and management directly on the device:** displays the current pressure, pressure settings can be set and displayed, and much more
- **No-maintenance brushless motor**

- **High coverage performance together with easy operation**
- **Innovative ProSpray product features:** Digital information readout and unit control directly on the device - tilting carriage - integrated high-pressure filter - and more

Superb Spray Surface Quality: with the Vector Grip Airless gun. Light in weight with a long service life

No nozzle blockages: The high pressure filter is easily accessible and quick to clean. Three different filter inserts (fine, medium, coarse) ensure an optimal match with the material

Tilting cart: Fast change of the container. Site-optimised tyres allow convenient pump transport

Maintenance-free, brushless direct current motor: Due to the improved performance, the motor works even more efficiently at low and also at high speeds. The continuous paint pressure measurement controls the motor speed automatically, thus ensuring a constant material pressure

Clearly arranged - DESC-Control:

With the digital display you can read out and handle machine data, consumption figures, runtimes and much more. The intelligent deadband control, SlowMotion function and FrequentClean guarantee trouble-free work

≤ 0.032" ; 3.8 l/min

PROSPRAY 3.34 SPRAYPACK

A technology masterpiece for high-viscosity materials such as flame retardants and corrosion-proofing products

- **This high-performance piston pump:** is ideally suited for large building sites where it is also able to handle high-viscosity materials
- **No-maintenance brushless motor**
- **For large building sites:** Powerful and robust

- **Faster than ever:** Quick-change fluid section for ease of servicing and shorter reaction times
- **Innovative ProSpray product features:** Digital information readout and unit control directly on the device - tilting cart - integrated high-pressure filter - and more.

Superb Spray Surface Quality: with the Vector Grip Airless gun. Light in weight with a long service life

No nozzle blockages: The high pressure filter is easily accessible and quick to clean. Three different filter inserts (fine, medium, coarse) ensure an optimal match with the material

Tilting cart: Fast change of the container. Site-optimised tyres allow convenient pump transport

Maintenance-free, brushless direct current motor: Due to the improved performance, the motor works even more efficiently at low and also at high speeds. The continuous paint pressure measurement controls the motor speed automatically, thus ensuring a constant material pressure

Simple and quick: Change of the suction system without tools

Clearly arranged - DESC-Control: With the digital display you can read out and handle machine data, consumption figures, runtimes and much more. The intelligent deadband control, SlowMotion function and FrequentClean guarantee trouble-free work and quick cleaning

Low maintenance costs: The practical, self-adjusting packings lead to less wear and are easy to change. They have a service life up to 50% longer than comparable packings

≤ 0.034" ; 4.5 l/min

PROSPRAY 3.39 SPRAYPACK

Powerful emulsion unit for large areas

- **More power:** Greater suction performance thanks to the low position of the suction valve
- **Twice as fast with emulsion:** Parallel two-gun operation possible
- **The most powerful pump in the ProSpray family:** Even able to cope with Airless spraying fillers

- **Innovative ProSpray product features:** Tilting cart - change paints without using tools

Superb Spray Surface Quality: with the Vector Grip Airless gun. Light in weight with a long service life

No nozzle blockages: The high pressure filter is easily accessible and quick to clean. Three different filter inserts (fine, medium, coarse) ensure an optimal match with the material

Tilting cart: Fast change of the container. Site-optimised tyres allow convenient pump transport

Maintenance-free, brushless direct current motor: Due to the improved performance, the motor works even more efficiently at low and also at high speeds. The continuous paint pressure measurement controls the motor speed automatically, thus ensuring a constant material pressure

Also available as filler version with Airless gun AG 19

Clearly arranged - DESC-Control: With the digital display you can read out and handle machine data, consumption figures, runtimes and much more. The intelligent deadband control, SlowMotion function and FrequentClean guarantee trouble-free work and quick cleaning

Low maintenance costs: The practical, self-adjusting packings lead to less wear and are easy to change. They have a service life up to 50% longer than comparable packings

≤ 0.039" ; 5 l/min

NOZZLES

The heart of the spraying process

Across all technologies – Airless, AirCoat, plaster spraying with worm pumps, HVLP or XVL P – nozzles and air caps play a decisive role in surface quality. In addition to the actual pump, they are the true heart of the spraying process. This is where the material is atomised and where the fineness of the droplet formation in the spray pattern is determined. The nozzle size also determines the quantity of material forced through the bore. Top-quality nozzles are a prerequisite for premium surface finishes in line with your professional standards.

Water and solvent-based lacquers, lacquer paints, oils, separating agents	Synthetic resin lacquers, PVC lacquers, 2K lacquers	Primers, fillers
Fire protection, rust protection paints	Emulsion and latex paints, adhesives, sealants	Exterior paints, roof coatings, floor coatings
Structural waterproofing, bituminous coatings	Filler	Plaster

AIRLESS TRADETIP 3 NOZZLES – PERFECT AND DURABLE

Art. no. 553xxx The yellow standard nozzle covers a wide spectrum of applications using primers, enamels and lacquers.

INNOVATION SINCE 1947

Perfect surfaces and added value are our passion. Bringing colour, protection and function to surfaces is our mission. We dedicate all of our technical expertise to your objects and products, and support you with personal service. Using innovative technologies and highly efficient, reliable and user-friendly solutions, we are constantly setting new standards in surface technology.

Anyone purchasing a WAGNER paint spraying unit automatically receives a three-year manufacturer's warranty. But we can do more: If you register online, you can extend this warranty for a further two years, free of charge!
